

FLEXTOOTH CRUSHER RANGE

For reduction of friable or semi-friable materials

The BJD range of Flextooth Crushers reduce both large and small materials in one operation with minimum fines production. Their low height and compact construction simplifies installation.

Custom-built packages can be supplied comprising crusher, motor, drive and base frame plus other ancilliary equipment as required.

BENEFITS

- Capacities up to 500 TPH depending on duty
- Robust construction
- Wide variety of applications
- Minimum fines production
- Powers up to 225 kW
- Choice of hammer types
- Custom built packages available

SPECIFICATION SUMMARY

- Eleven standard model sizes
- Feed openings ranging from 406x406mm to 1829x975mm
- Spring-loaded and adjustable breaker plate
- Incorporates a metal trap
- Equipped with renewable liners throughout

Standard Flextooth range – other sizes available on request.

HAMMERS

Hammer types are available to suit different duty requirements. Heavy-duty slugger hammers can be fitted to satisfy the more arduous duty demands and rigid hammers are available to satisfy the need for exceptionally slow speed operations. Also available are claw shaped hammers that are designed to permit operational speeds as low as 914m/min.

TYPICAL APPLICATIONS

- Coal
- Salt
- Bone
- Coke
- Cattle cake
- Metal turnings
- Chemicals
- Broken bricks
